Future Tech
Empowering your Business Mind

Course Content

Module 1 — Foundations, Attacker Mindset & Lab Setup .....
Sub-module 1.1 — Security fundamentals & the attacker mindset .....
Sub-module 1.2 — Linux, Windows & networking essentials .....
Major Lab — Build your own hacking lab .....

Module 2 — Passive Reconnaissance & OSINT.....
Sub-module 2.1 — Passive reconnaissance .....
Sub-module 2.2 — OSINT tooling & footprinting.....
Major Lab — Build a full OSINT profile .....

Module 3 — Active Reconnaissance: Scanning & Enumeration .....
Sub-module 3.1 — Host discovery & scanning .....
Sub-module 3.2 — Service enumeration .....
Major Lab — Map & enumerate the lab network .....

Module 4 — Vulnerability Assessment.....
Sub-module 4.1 — Finding & scoring vulnerabilities .....
Sub-module 4.2 — Prioritizing & reporting.....
Major Lab — Full vulnerability assessment .....

Module 5 — Exploitation Fundamentals (Metasploit & Armitage) .....
Sub-module 5.1 — Exploitation concepts & Metasploit.....
Sub-module 5.2 — Armitage & known CVEs.....
Major Lab — Gain access to lab targets.....

051-5914007 / 0334-0541111

Future Tech
Empowering your Business Mind

Module 6 — Web Application Attacks .....
Sub-module 6.1 — How web apps break.....
Sub-module 6.2 — Common web attacks.....
Major Lab — Attack and fix a web app .....

Module 7 — Password & Credential Attacks .....
Sub-module 7.1 — Password cracking .....
Sub-module 7.2 — Capturing & relaying credentials .....
Major Lab — Crack & capture credentials .....

Module 8 — Post-Exploitation, Privilege Escalation & Active Directory.....
Sub-module 8.1 — Post-exploitation & privilege escalation .....
Sub-module 8.2 — Active Directory attacks .....
Major Lab — From foothold to Domain Admin .....

Module 9 — Wireless & Social Engineering .....
Sub-module 9.1 — Wireless security .....
Sub-module 9.2 — Social engineering & phishing .....
Major Lab — Wireless capture & phishing simulation .....

Module 10 — Blue Team Essentials — Detection, Logging & Incident Response.....
Sub-module 10.1 — Detection & monitoring.....
Sub-module 10.2 — Incident response.....
Major Lab — Catch the attacker .....

Module 11 — Digital Forensics & Data Recovery .....
Sub-module 11.1 — Digital forensics fundamentals.....

Sub-module 11.2 — Data recovery & carving .....
Major Lab — Investigate & recover with open-source tools.....

Module 12 — Capstone — Red vs Blue Engagement & Reporting .....
Sub-module 12.1 — Engagement methodology & reporting .....
Sub-module 12.2 — Live Red vs Blue exercise .....
Major Lab — Capstone project & final exam .....
